

Lower costs, more control.

SMS - Simple Management System offers many new opportunities for individual websites and/or membership driven organizations.

SMS is an extended content management system for your web site and your membership administration. From individual website to web portal with member support where each member is enabled to update their own content—SMS is the easy and inexpensive choice. Find out how this system can reduce your administrative tasks and costs.

Need a feature you don't see here on our list? VSIP Consulting can add custom functionality to meet customer requirements.
